Eggs on Bushes.  
Herring that flock along the coast of southern Alaska in vast "schools" lay their eggs in bunches in very shallow water near shore, attaching them to floating seaweeds or rocks. It is a habit of which the native Indians take advantage by throwing quantities of brush into the water at the spawning season. Later, they collect the brush and scrape off the fish eggs, drying the latter in the sun for food.

Pearl Long Valued as Jewel.  
The pearl is the only jewel worn as nature formed it. All the precious stones—diamonds, rubies, emeralds and the rest—have to be cut before they can be worn. But the pearl is worn just as it is taken from the oyster shell. It is among the most ancient of jewels.
